Comptroller—J. H. MORRIS, Office, Public Building.
Townsman—JOEL SLOUGH, Office, Public Building.
School Trustees—WILLIAM W. WHITNEY, JOHN WILLIAMS and URIAH C. BUTLER.

THE AMENDED LIST OF DRAFT EXEMPTIONS.

WAR DEPARTMENT,
PROVOST MARSHAL GENERAL'S OFFICE,
WASHINGTON, NOV. 9, 1863.

Paragraph 55 of the regulations for the government of the Bureau of the Provost Marshal General of the United States, is amended to read as follows:

85. The following diseases and infirmities are those which disqualify for military service, and for which only drafted men are to be "rejected as physically or mentally unfit for the service," viz:

1. Manifest imbecility.
2. Insanity. This includes well-established recent insanity with liability to a recurrence.

3. Epilepsy. For this disability the statement of the drafted man is sufficient, and the fact must be established by the duly attested affidavit of a physician in good standing, who has attended him in the disease within the six months immediately preceding his examination by the Board.

4. Paralysis, generally, or of one limb, or chorea; their existence to be adequately determined. Decided atrophy of a limb.

5. Acute or organic diseases of the brain or spinal cord, or of the heart or lungs; of the liver or spleen; of the kidneys or bladder, which have so seriously impaired his general health as to leave no doubt of the man's incapability for military service.

6. Confirmed consumption. Incipient consumption does not exempt.

7. Cancer; aneurism of the large arteries.

8. Inveterate and extensive disease of the skin, such as will necessarily impair his efficiency as a soldier.

9. Decided feebleness of constitution, or deficient size of chest, sufficient in degree to leave no doubt of the man's unfitness for military service.

10. Scrofula or constitutional syphilis, which has so seriously impaired his general health as to leave no doubt of the man's incapability for military service.

Chronic rheumatism, unless manifested by positive change of structure, wasting of the affected limb, or puffiness or distortion of the joints, does not exempt. Impaired motion of the joints and contraction of the limbs alleged to arise from rheumatism, and in which the nutrition of the limb is not manifestly impaired are to be proved by examination while in a state of anæsthesia induced by ether only.

13. Pain, whether simulating headache, neuralgia in any of its forms, rheumatism, lumbago, or affection of the muscles, bones or joints, is a symptom of disease so easily pretended that it is not to be admitted as a cause for exemption unless accompanied by manifest derangement of the general health, wasting of limb, or other positive sign of disqualifying local disease.

14. Great injuries or diseases of the skull, occasioning impairment of the intellectual faculties, epilepsy, or other manifest nervous or spasmodic symptoms.

15. Total loss of sight; total loss of sight of right eye; entreat of right eye; loss of crystalline lens of right eye.

16. Partial loss of sight of both eyes, vision being so greatly impaired as to leave no doubt of the man's inability to perform military duty. Serious permanent diseases of the eye or eyelids, so manifestly affecting the use of the eyes as to leave no doubt of the man's incapability for military service. Near-sightedness does not exempt. If found on trial to be so decided as to incapacitate for field service the man may be transferred to the Invalid Corps.

17. Total loss of nose; deformity of nose so great as to seriously obstruct respiration, ozena, dependent on caries in progress.

18. Decided deafness. This disability must not be admitted on the mere statement of the drafted man, but must be proved by the existence of positive disease, or by other positive evidence; and it must be so decided as to leave no doubt of the man's unfitness for military service. Chronic purulent otorrhea.

19. Incurable diseases or deformities of either jaw, such as will necessarily greatly impede mastication or speech. Anæsthesia of the lower jaw; caries of the bones of the face, if in progress; cleft palate (bony); extensive loss of substance of the cheeks or salivary fistula.

20. Dumbness; permanent loss of voice. Not to be admitted without
